### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

Claims 1, 5 and 5-10 are pending.

### ***Action Summary***

1.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2.

Claims 1, 3 and 5-8 stand rejected under 35 U.S.C. 102(b) as being anticipated by Mellul USP No. 5,612,021 for the reasons stated in the previous office action.

### ***Claim Rejections - 35 USC § 103***

3.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the

Art Unit: 1616

invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4.

Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mellul USP No 5,612,021.

Mellul teaches a cosmetic composition that includes a wax, a resin and a hollow powder as stated in the previous office action. Mellul teaches each and every aspect of the invention as claimed by applicant with the exception of teaching the specific hollow powders are resin or glass powders.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to have replace the fullerene powders of Mellul with the resin or glass powders of the instant claims in view of the teaching of Mellul that said hollow powders are employed in cosmetic compositions. This is in the absence of any clear showing of unexpected results attributable to the use of the specific resin or glass powder claimed by the applicant.

### ***Response to Arguments***

5.

Applicant's arguments filed March 30, 2007 have been fully considered but they are not found to be persuasive.

Applicant is arguing that the reference is insufficient because fullerene is only hollow at the atomic level. A hollow particle is still a hollow particle no matter what level

it is hollow on. Applicant is arguing that only the inner part is hollow. It is the examiner's position that it is still hollow no matter how small it is and that the compositions of Mellul clearly teach a wax, a resin and hollow powders as claimed by applicant.

6.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

7.

No claims are allowed.
